

WHITEVoid operates at the horizon where art, design and technology meet.

Our Berlin based multidisciplinary design studio is comprised of specialists in interaction, media and product design, architecture, mechanical and electronic engineering. Our installations and products are created for events, museums, trade fairs, festivals, concerts and clubs. Our house brand KINETIC LIGHTS is the leading specialist in kinetic lighting. Our products and designs have gained worldwide recognition and received several awards.

TouchDesigner Developer (m/w)

WHITEVoid is looking for a motivated and high-level developer with experience and refined expertise with Derivative's TouchDesigner, to become part of creating and realizing big format kinetic and static light installations.

Over the last years WHITEVoid developed a wide range of extraordinary projects across the globe. From interactive installations and spaces to high-end kinetic systems and products. TouchDesigner was used to realize a lot of these projects and we are now looking to expand our Berlin team with an additional TouchDesigner developer.

YOUR TASKS:

- * Become our leading person for developing and maintaining the Realtime Control Software for our Kinetic Lights System
- * Adapt and extend our software toward new technologies and customer requests
- * Interdisciplinary communication and development in our office with mechanical and electrical engineers
- * On-site set ups and operating of national and international installations and projects
- * Organizing and managing software versions (git)
- * Technical documentation

WE OFFER:

- * Unique and exclusive projects in arts, architecture, shows and event
- * Creative and independent working environment
- * Great growth potential in international markets
- * Outside the box projects on international scale
- * Profit sharing

YOUR QUALITIES & SKILLS:

- * Experience and knowledge related to interactive, electromechanical projects
- * Good understanding of key aspects regarding sensors, actors and communication protocols
- * Independent working and self-motivation in regards to our company's bigger picture
- * Accurate, diligent and responsible working methods

Touch Designer Specific:

- * Extensive TouchDesigner 088 and 099 experience with a track record of successfully completed projects
- * Python or similar scripting language experience. Object Oriented Programming experience is a plus
- * Basic understanding of 3D and SOP workflow in TouchDesigner
- * Basic understanding of GLSL

HOW TO APPLY:

If we have aroused your interest in this exciting task, send us your digital application with a CV and photo stating your salary expectations by e-mail.
