

WHITEvoid is an art and design studio. Our work spans a wide range of worldwide cutting edge projects and scales. From architecture, interiors and light installations to interactive exhibits and custom-made applications. Our latest architectonic designs realize complex unique ideas and adorn clubs, shops, exhibitions, shows and more.

The team is comprised of specialists in architecture, product design, mechanical-, electronic- and software engineering. We are strongly driven by technology, innovation, and experimentation. We dare to think big and push the boundaries in complexity and beauty of each project.

Our house brand KINETIC LIGHTS is the leading specialist in kinetic lighting. For more than fifteen years our designs and products have earned awards and worldwide recognition for delivering professionally engineered lighting equipment.

Mechanical Engineer (f/m/d) fulltime

YOUR TASKS:

- * development of multi-layered systems and products from concept to finished product or production readiness.
- * development and design of mechanical parts and assemblies
- * deriving professional manufacturing and assembly drawings of metal and plastic parts, taking into account relevant standards and internal regulations
- * building, commissioning and testing of prototypes
- * preparation of product documents (certifications, manuals, documentations, etc.)
- * implementation of competitive and future-oriented product ideas
- * introduction of modern manufacturing technologies to increase efficiency and productivity in agile prototype development and production (e.g. Sintern, 3D printing, etc.)

YOU BRING:

- * degree in mechanical engineering or comparable
- * 4+ years of professional experience in the field of development
- * advanced knowledge of SolidWorks
- * very good knowledge in mechanics and drive technology
- * basic knowledge in electronics, LED technology, control engineering
- * experience in model and prototype construction
- * ability to communicate and work in a team
- * high degree of initiative and system thinking
- * good knowledge of German and English, both written and spoken

WE OFFER:

- * a challenging position
- * high level of self-management and organizational flexibility
- * extraordinary and large scale international projects in the field of art, architecture, show, exhibition and event
- * crafting in a modern in-house modeling and prototyping workshop
- * versatile design possibilities in the areas of prototype construction, assembly and maintenance of installations
- * highly motivated international team
- * modern studio next to the river Spree in East Berlin
- * wild card option to join our projects on site at world-wide destinations
- * team events, BBQ, fruits, delicious coffee and fun at the pinball machine

HOW TO APPLY:

We look forward to receiving your application including CV, portfolio, motivation letter and salary expectations by e-mail.
