

WHITEvoid is an art and design studio. Our work spans a wide range of cutting-edge projects and scales. From architecture, interiors, and light installations to interactive exhibits and custom-made applications, our architectonic designs realize complex, unique ideas and adorn clubs, shops, exhibitions, shows, and more worldwide.

Our team comprises specialists in architecture, product design, event technology, and mechanical, electronics, and software engineering. Driven by technology, innovation, and experimentation, we dare to think big and push the boundaries of complexity and beauty in every project.

Our house brand **KINETIC LIGHTS** is the leading specialist in kinetic lighting. For more than fifteen years our designs and products have earned awards and worldwide recognition for delivering professionally engineered lighting equipment.

Technical Project Manager (m/f/d)
full-time | on-site

- YOUR TASKS:**
- * Coordinate the setup and configuration of audio, video, and lighting equipment for large-scale permanent installations and live events
 - * Lead installation and event production processes, including site planning, logistics management, and coordination with internal and external partners
 - * Serve as the primary liaison and central point of contact for all project stakeholders, actively gathering and disseminating essential project information
 - * Oversee a multidisciplinary team of technicians, designers, and developers, fostering collaboration and driving project success
 - * Allocate resources, delegate tasks, and manage performance to ensure project milestones are met on time and within budget
 - * Ensure uninterrupted viewer experience by reporting technical issues to the team, allowing them to implement backup systems

YOU BRING:

- * Proven experience in leading and executing complex technical projects, preferably within art, design, theatrical production, live entertainment, or a related industry
- * Strong decision-making, problem-solving, and organizational skills
- * Exceptional communication and interpersonal skills
- * Demonstrated leadership skills and a willingness to take responsibility
- * Solid technical knowledge of AV systems, lighting equipment, and event technology
- * Knowledge of with DMX-based lighting control systems and software
- * Knowledge of LED technology, including pixel mapping and mapping software
- * Familiarity with software tools for content creation, mapping, and playback
- * Understanding of lighting design principles and techniques for creating beautiful, dynamic visual experiences
- * Availability during project implementation at night and on weekends, and for domestic and international travel

WE OFFER:

- * Exceptional, challenging and unique international projects
- * Participation in the ongoing establishment of DARK MATTER, a new location for art, technology and events
- * A highly motivated, international team and a friendly, open-minded working environment - we stand for openness and diversity!
- * Independent working, flat hierarchies, and the opportunity to contribute your own ideas
- * Substantial discount on Urban Sports Club memberships
- * Free German lessons online or at a centrally located school
- * A bike leasing scheme with tax benefits, insurance, maintenance, and end of lease options
- * Guest list allowance for our permanent exhibition and temporary events
- * Delicious coffee and other drinks and snacks for free
- * Team events, such as BBQs, summer parties and a Christmas party
- * A modern studio right on the Spree in East Berlin with great leisure activities nearby
